PROJECTS

BillBack - AI-Powered Medical Billing Dispute Assistant | <https://www.billbackai.com/>

Winner, Butterworth Product Development Competition – six-month software & systems challenge

- Designed, built, and shipped a working AI application that automatically flags billing errors and generates dispute letters to recover overcharges, competing against MBA and engineering teams over six months

PROFESSIONAL EXPERIENCE

Archipelago Companies (Multi-Brand Premium Consumer Products Holding Co.- OluKai, Melin, Roark, Amble)

AI Automation and Agents Intern

June 2026- September 2026, Irvine, CA

- Interviewed VP/Director stakeholders across Finance, Ops, Accounting, and IT to prioritize 10 automation opportunities by pain point, impact, and feasibility; launched 6 workflows in 10 weeks, including a Claude Skills based tool that replaced Melin's Power BI planning/forecasting process and cut recurring work 95%
- Automated the Shopify → Full Circle ERP order flow across 4 brands - orchestrated Pipe17, Couchdrop SFTP and ERP jobs in n8n with folder-state monitoring alerting to Slack; \$23K+ annual labor saved, 2.5K+ daily orders touchless
- Built Archipelago's AI automation stack, enabling touchless daily warehouse reporting across 4 brands in US and EU/UK markets, eliminating ~12 hrs/week of manual report advancing daily ops reporting by ~4 hours
- Redesigned the remittance lifecycle with the VP of Accounting & Finance, automating intake, reconciliation, and ERP posting; validated the workflow against live transactions and reduced processing time by 90%+

Edumerge Solutions Private Limited

August 2017 - February 2025, Bengaluru, India

Strategy and Product Lead, Founder's Office (September 2022 - February 2025)

- Launched a centralized analytics suite enabling clients to optimize workflows and cut costs by up to 25%, while providing internal insights to refine value propositions, optimize pricing tiers, and boost engagement
- Created Sales-Tech-Support pods, improving customer experience, ticket resolution, and achieving near-zero attrition
- Owned multiple products generating \$950K+ in gross revenue, working directly with client Heads of Department and Service Delivery leaders to ensure adoption and value realization
- Built and scaled a dedicated Customer Success function for strategic accounts, lifting CSAT by 35%+ and driving \$150K+ in expansion revenue through data-led upsell execution

Product Manager (April 2020 - August 2022)

- Led transition from monolithic ERP modules to a modular, API-driven product architecture, reducing custom deployments by 40% and accelerating enterprise onboarding
- Spearheaded integration of online learning platform (LMS) into ERP product, delivering \$214K in direct new revenue
- Led go-to-market strategy for entry into new education segments (K-12 group schools, universities), assessing competitive alternatives and defining product positioning, driving \$100K+ in new segment revenue in year one

Development Team Lead (August 2017 - March 2020)

- Led technical team in developing new ERP system for colleges and revamping the UI/UX of existing products, onboarding of 55 new institutions and generating approximately \$261K in new revenue
- Implemented seamless migration from Rackspace to Amazon Web Services boosting NPS score by over 40%

Oracle

July 2015 - July 2017, Bengaluru, India

Member Technical Staff - Database Developer

- Engineered encryption infrastructure for Oracle's core database security suite (Label Security, Auditing, Data Masking, Virtual Private Database); earned "Rising Star" and "Most Impactful Project" recognition
